

Better Blood Circulation with Adult Stem Cell Nutrition

StemFlo® is the only supplement of its kind, all-natural and scientifically-tested for effectiveness

Your health depends upon your circulatory system's ability to deliver to every part of the body life-sustaining nutrients, oxygen and stem cells, the building blocks of your body, while at the same time removing detrimental toxins and wastes that can potentially lead to a variety of health problems. Maintaining good circulatory health is paramount for optimal health throughout the entire body.

All-natural supplementation to support your circulation

StemFlo uses ingredients only found in nature specifically designed to support optimal blood flow. It is a proprietary blend of triple- action antioxidants and enzymes that assist the body in reducing oxidative stress and helping to purify the blood of toxins. StemFlo optimizes blood flow and circulation.*

Backed by science to improve blood circulation within 30 minutes

In one study, StemFlo was documented to support optimal blood flow - supporting blood circulation in capillaries by reducing blood markers associated with fibrin production and oxidative stress. Fibrin is a protein that can buildup and impede optimal blood flow.*

Triple-Action Support for Your Circulatory Health

StemFlo delivers a triple-defense response to supporting your body's ability to naturally renew itself. Comprised of a proprietary blend of all-natural herbs, nutrients and botanicals, StemFlo helps to support blood circulation by offering the following:

- **Reduces Oxidative Stress:** StemFlo contains powerful antioxidant ingredients to help reduce oxidative damage and fibrin production.*
- **Breaks Down Excess Fibrin:** StemFlo contains proteolytic enzymes that help digest fibrin. Reducing excess fibrin buildup ensures optimal blood flow in smaller blood vessels and capillaries.*
- **Purifies the Blood:** StemFlo contains natural botanical ingredients that can assist in the elimination of toxins from the blood.*

FEATURES	BENEFITS
Gotu Kola Extract	In China, it has been long known as a “miracle elixir of life”. Aside from its antioxidant properties, it supports strong blood vessels and acts as a blood purifier. It is used to enhance memory, concentration and vitality.*
Indian Gooseberry Extract (AMLA)	One of the “super”Vitamin C sources, it provides a highly concentrated source of Vitamin C.*
Lemon Fruit Extract	A great source of bioflavonoids, especially Hesperidin, which is well documented to support collagen and connective tissue formation, supporting the proper functioning of fine microvasculature.*
Enzyme Blend	Proprietary blend of active enzymes that help digest excess fibrin in the blood, supporting optimal blood flow.*
Grape Pomace Extract	It is a by-product of grapes that has unveiled a rich polyphenol profile with a strong antioxidant and antimicrobial activity.*
Turmeric Extract	It has been used for centuries in Asia to help purify the blood and detoxify the body.*
Cacao Powder	Rich in flavanols, cacao supports healthy non-inflammatory process and is widely known for its antioxidant properties.*
Blackcurrant Extract	Native to northern Europe and Asia, Blackcurrant is a berry that was shown in recent studies to support stem cell function; blackcurrant has a very high content of antioxidants and Vitamin C.*

INGREDIENTS / LABEL

StemFlo® contains a proprietary combination of active botanicals—packed with powerful antioxidants—and specially selected enzymes to support the smooth, easy flow of the body's own stem cells, oxygen and nutrients to tissues and organs. This fast-acting, unique blend is scientifically formulated to maintain healthy fibrin levels, reduce oxidative stress, purify the blood of toxins, and support healthy inflammation levels. **StemFlo** is designed to work throughout the body to support healthy circulation and blood flow.¹

StemFlo® contiene una combinación exclusiva de extractos botánicos, con potentes antioxidantes, y enzimas especialmente seleccionadas para apoyar el movimiento adecuado de las propias células madre, el oxígeno, y los nutrientes a los tejidos y órganos del cuerpo. Esta única mezcla de rápida acción, está formulada científicamente para mantener niveles saludables de fibrina, reducir el estrés oxidativo, y purificar la sangre de toxinas, manteniendo niveles saludables de inflamación.¹ **StemFlo** está diseñado para trabajar en todo el organismo, promoviendo la circulación saludable del flujo sanguíneo.¹

Product of USA

REV1-OCT15 Item Code: 1701

USAGE:

- Take three capsules, once or twice a day between meals.
- If StemFlo is taken together with protein, the protein may divert some of the activity of the Enzyme Blend.

POTENTIAL USERS:

StemFlo is safely enjoyed by men, women and children. It is highly recommended for those seeking optimal health, fitness and performance.

FOR YOUR INFORMATION:

- Each bottle contains 90 capsules.
- Vegan capsules (all vegetarian)
- No sugar, artificial colors, artificial flavors, dairy, yeast, or preservatives.
- If you are currently taking other proteolytic enzymes, you may want to consider discontinuing them as they are also in StemFlo.
- Proteolytic compounds like Enzyme Blends are known to have anti-coagulant properties. Persons who suffer from clotting disorders or who are on anti-coagulant medications should consult their treating health care practitioners prior to taking StemFlo.
- Label statement: Consult your physician if pregnant or nursing. Most products express this warning from a position of caution rather than any known pregnancy risk. There is no evidence that consuming StemFlo during pregnancy causes any health risks.

FAQ'S

What does StemFlo® do?

StemFlo is a proprietary blend of herbs and all-natural ingredients that supports optimal blood circulation by reducing fibrin buildup and oxidative stress in the blood, not to mention achieving blood detoxification and improving overall blood flow. When StemFlo is used together with SE3™, it optimizes the body's ability to deliver and circulate adult stem cells, oxygen and nutrients throughout the body and to the tissues where they are needed.

How will StemFlo benefit me?

StemFlo supports the breakdown of fibrin in the blood and prevents the formation of new fibrin mesh. StemFlo supports optimal blood circulation, supporting the delivery of adult stem cells to the tissues in need.

Will I experience immediate effects with StemFlo?

A study using StemFlo documented improved blood circulation within 30 minutes of consumption. However, individual health benefits may vary.

Can StemFlo be taken with SE3 and ST-5™ with MigraStem™?

StemFlo works in tandem with SE3 and ST-5 with MigraStem. By taking both StemFlo and SE3 daily, you are helping to safeguard your body's ability to maintain maximum renewal efficiency, supporting the release and circulation of adult stem cells within the bloodstream. By adding ST-5 with MigraStem — a low calorie dietary supplement — you are further supporting the migration of adult stem cells to tissues and organs in need. This trio of products orchestrates a greater level of stem cell nutrition and preventative care.
