

StemPets[®]

ADVANCED FORMULA

60 Chewable Tablets per Bottle

StemPets Advanced Formula is an all-natural stem cell enhancer for pets. StemPets Advanced Formula chewable tablets are a specially formulated animal alternative to Stemtech's patented human adult stem cell enhancer, AFA Concentrate.

Potential Users

House Pets

FEATURES	BENEFITS
Adult stem cell enhancer	Assists in releasing more adult stem cells into circulation.
100% natural ingredient, <i>Aphanizomenon Flos-aquae</i> (AFA)	AFA has been safely consumed for over 3 decades for its nutrient dense properties.
Proprietary concentrate	A nutrient dense blend of ingredients having a unique synergy in supporting stem cell function.
Undaria pinnatifida	A marine alga from pristine ocean environments around the world well known to support the immune system. Fucoidan from Undaria pinnatifida has been documented to support a long-lasting increase in the number of circulating stem cells.
Cordyceps sinensis	A synergistic ingredient that has been associated with stamina and longevity, and a wide variety of health benefits. When used with AFA Concentrate, fucoidan from Undaria pinnatifida, this combination enhances the support of stem cell release.
Daphnia Pulicaria, Malt Extract	All natural flavouring

INGREDIENTS / LABEL

StemPets® Advanced Formula with SE2® for small to medium sized animals is a blend of patented and patent pending ingredients that support the natural release of adult stem cells in the body, assisting in the maintenance of optimal health.

StemPets Advanced Formula supports your pet's natural renewal system.

If you have any concerns, please consult your veterinarian before using **StemPets**.

KEEP OUT OF REACH OF CHILDREN. DO NOT USE IF SAFETY SEAL IS BROKEN.

StemPets®

Feed to your dog or cat as a treat or in their food, according to weight, 1 or 2 times daily.

Under 6 Kg.	1/2 Tablet
6 - 13 Kg.	1 Tablet
13 - 27 Kg.	1 to 2 Tablets
Above 27 Kgs.	2 Tablets

FAQ'S

What does StemPets® Advanced formula do?

StemPets Advanced Formula supports the natural release of adult stem cells from your pet's bone marrow. Adult stem cells are the "master" cells found in your pet's body after birth, most abundantly in the bone marrow. They form the very core of the body's natural renewal system for animals, just as they do for humans. Without them the natural renewal process of your pet's tissues and organs simply could not take place.

Why do pets need StemPets Advanced Formula?

As your pets grow older, the number of circulating adult stem cells gradually decreases, leaving your furry friends more susceptible to injury and other health challenges. By supporting the natural release of adult stem cells from the bone marrow, StemPets Advanced Formula supports your pet's ongoing health.
