- Less Than 1 Gram of Sugar
- Unique Protein Blend
- 67% More Fibre
- 33% More Digestive Enzymes
- Low Fat (1 Gram)
- Creamy, Smooth, and Great Taste!

A multi-faceted dietary supplement that no other supplement can do

ST-5® with MigraStem® quickly and conveniently provides the daily balanced nutrition you need to maximise the use of your body's own stem cells and create a "feel good" sense of vitality and stamina. This advanced nutritional multi-supplement addresses health at the cellular level— feeding your cells what it needs so your body can function at its best.

ST-5 with MigraStem contains 5 specialised blends including the exclusive Migrastem. Loaded with 15 grams of plant-based protein, 9 grams of fibre, ST-5 with Migrastem also provides 20 vitamins and minerals, antioxidants, prebiotics, exotic superfoods and digestive enzymes— all in one scoop. A delicious nutrient boost to your favorite healthy beverage, ST-5 with MigraStem provides everything your body needs to thrive.

MigraStem Power

ST-5 with MigraStem is the only nutritional supplement available that contains the patent-pending MigraStem blend. MigraStem is a powerful, proprietary blend of natural ingredients that has been documented to assist the body's natural renewal process by encouraging your body's own stem cells to migrate - following the release and circulation of them - into tissue. Once in the tissue, your stem cells reproduce and become new healthy cells of that tissue. Working in-tandem with Stemtech's SE3® and StemFlo®, ST-5 with MigraStem further supports the migration of your body's own stem cells into the tissue in need of renewal.. This trio of products orchestrates a greater level of stem cell nutrition by supporting your daily renewal process.

Key Benefits

- Optimises the Migration of your body's own stem cells†
- Supports weight management†
- High in dietary fibre - 10g
- Supports healthy digestion with prebiotics and digestive enzymes†
- Supports sustained energy†
- Excellent source of protein - 15g
- Rich source of your daily vitamins and minerals

ST-5 with MigraStem's FAB 5

FAB 5 BLENDS	BENEFITS
1. MigraStem™ Whole Food Antioxidant	Patent-pending MigraStem maximises the use of your body's own stem cells.† It contains potent whole food antioxidants, including goji fruit extract, organic fucoidan, organic GanoUltra™ mushrooms, maca, and fractionated colostrum— touting a host of health benefits widely known by Chinese herbalists.
2. Triple Source Plant-Based Protein	Triple source plant-based protein is 100% vegetarian and made with a combination of raw sprouted brown rice, pea and potato. It provides 15 grams and 35% of the Daily Value, making it an excellent source of protein. Plus, it delivers a complete amino acid profile, helps with appetite suppression, and is easy to digest.† Gluten free and Non GMO.
3. High Potency Vitamins and Minerals	Contains 20 essential vitamins and minerals, providing 100% Daily Value of 16 key nutrients. Great liquid alternative to taking a multivitamin in pill form.
4. Fibre and Prebiotics	Provides an excellent source of dietary fibre (10g), with 6.1 grams of soluble fibre. ST-5 with MigraStem's fibre and prebiotic blend supports a feeling of fullness, intestinal health, and immune health. † Contains a premium acacia gum, a proven prebiotic to help good bacteria thrive in the digestive tract.†
5. Digestive Enzymes	A full spectrum of active, plant-sourced enzymes to help break down fats, carbohydrates and protein, aiding nutrient absorption.

It's not only what ST-5 with MigraStem contains, it's also about what it doesn't contain: No fillers, artificial flavours, gluten, soy, and genetically modified organisms.

Product Fact Sheet

INGREDIENTS / LABEL

SUGGESTED USE:

Mix one level scoop of ST-5® with MigraStem® with your favourite healthy beverage. For simple and tasty recipes, visit Stemtech.com.

MORE INFORMATION:

Tune into our fortnightly product webinars. All details emailed out to you in our weekly EBLAST newsletter.

FREQUENTLY ASKED QUESTIONS (FAQs)

Can I use ST-5® with MigraStem® with SE3® and StemFlo®?

Yes. To obtain the maximum benefit, we suggest that StemFlo be taken one hour before or one to two hours after you take ST-5 with MigraStem due to the protein in the mix. However, as ST-5 with MigraStem is a liquid, it does pass through the stomach into the intestines quickly, having little effect on the enzyme function in StemFlo.

How do I use ST-5 with MigraStem?

Mix it in any fluid of your choice. Blend with ice or frozen fruit. See www.stemtech.com, under Products tab for recipe ideas.

Can I make ST-5 with MigraStem into a hot drink?

You can make a warm beverage. The point is to not mix your ST-5 with MigraStem into boiling liquid. Boiling liquid will destroy some of the nutrients. Simply heat your fluid and mix in ST-5 with MigraStem. If the fluid does boil, let it cool before mixing in the product.

POTENTIAL USERS

- Everyone! No matter your age or activity level, you can benefit from ST-5 with MigraStem.
- For people who want a high potency vitamin-mineral in one formulation without having to buy multiple bottles.
- For anybody looking to even further optimise their daily renewal system.†
- For all who want to supplement their protein source with a high quality, low fat and NO cholesterol plant-based protein.
- For all those desiring to assist in maintaining healthy body fat, muscle mass, and strength.†
- For athletes who will want to make it a part of their daily supplement regime as it provides complete high-quality absorbable protein and valuable essential nutrients.

FOR YOUR INFORMATION

- Gluten free with no artificial colouring, artificial flavours, artificial sweeteners, yeast or preservatives.
- ST-5 with MigraStem contains a high quality non soy all vegetable/plant-based protein blend that provides all nine of the essential amino acids; the supplement is highly digestible and absorbable.
- Store in a cool dry location.
- If pregnant or nursing, consult with your healthcare practitioner.
- If one desires to consume the product in a weight loss program, then use the product responsibly. It is not recommended that one consume less that 1200 calories a day unless supervised by a healthcare practitioner. It is advisable to consult a healthcare practitioner prior to embarking on any weight loss regime.
- Protein has a tendency to satiate appetite, meaning making one satisfied longer. For those interested in weight management, it is recommended to eat a protein source first thing in a meal and carbohydrates to follow. So push away the chips and bread, and reach for a protein source first, such as ST-5 with MigraStem.
- For athletes: as protein is vital for muscle cell repair, it can be most beneficial to drink ST-5 with MigraStem after exercise. For further information on using ST-5 with MigraStem and the other Stemtech products to support an active lifestyle, go to www.stemsport.com.
