Stemtech was the first to discover the way to renew aging tissue in your body by supporting the natural release of its own stem cells. Stemtech’s team of expert stem cell scientists continue to research new ingredients and review the latest scientific literature to achieve the perfect formula, stemrelease3™, the third generation of our original clinically documented stem cell enhancer.

stemrelease3™ – A Dual Action Formula
First, stemrelease3 is the only stem cell nutrition formula to contain stemrelease®, an exclusive blend of clinically tested ingredients that help support the natural release of millions of your body’s own stem cells. Second, with its youth-promoting nutrients, stemrelease3 helps support telomere health. Telomeres are the caps that protect the ends of chromosomes, similar to how shoelaces have plastic caps to stop them from fraying. Supporting and maintaining the health of your telomeres can help you enjoy a healthier and more youthful life.

Primary Benefits
- Supports the body’s natural renewal system
- Supports telomere health
- Promotes youthful, healthy aging
- Supports a general sense of well-being

See for Yourself...
stemrelease3 is our most advanced stem cell release support formula to date and designed to deliver unparalleled results.

Studies show that the more stem cells you have circulating in your blood, the greater the ability of your body to naturally renew itself. With stemrelease3, you can function at your best, and live the healthy, long life you deserve.

### STEMRELEASE® BENEFITS

<tbody>
<tr>
<td>Undaria pinnatifida fucoidan</td>
<td>Undaria pinnatifida is an ultra-pure marine algae grown in pristine ocean waters. Known as one of the ocean’s greatest treasures, Undaria pinnatifida has been documented to support a long-lasting increase in the number of circulating stem cells.</td>
</tr>
<tr>
<td>Aloe macroclada</td>
<td>Aloe macroclada has been used for centuries for general well-being and a wide number of health challenges. It’s traditionally considered by the people of Madagascar as a factor of rejuvenation and longevity. Aloe macroclada has been documented to support an increase in the number of circulating stem cells.</td>
