

stemequine

30 Servings per Canister

StemEquine Advanced Formula is an all-natural adult stem cell enhancer for horses. These granules offer a specially formulated equine alternative to Stemtech's SE2®.

Potential Users

Horses (of all breeds)

FEATURES	BENEFITS
Adult stem cell enhancer	Assists in naturally releasing more adult stem cells into circulation.
100% natural ingredient, <i>Aphanizomenon Flos-aquae</i> , (AFA)	AFA has been safely consumed for over 3 decades for its nutrient dense properties.
Proprietary concentrate	A nutrient dense blend of ingredients having a unique synergy in supporting stem cell function.
Undaria pinnatifida	A marine alga from pristine ocean environments around the world well known to support the immune system. Fucoidan from Undaria pinnatifida has been documented to support a long-lasting increase in the number of circulating stem cells.
Cordyceps sinensis	A synergistic ingredient that has been associated with stamina and longevity, and a wide variety of health benefits. When used with AFA Concentrate, fucoidan from Undaria pinnatifida, this combination enhances the support of stem cell release.
Apple, Molasses and Alfalfa	Natural flavors that appeal to horses.

INGREDIENTS / LABEL

StemEquine® Advanced Formula with SE2® is a blend of patented and patent pending ingredients that support the natural release of adult stem cells in the body, assisting in the maintenance of optimal health. Consult your Veterinarian before giving your horse StemEquine® if you have any concerns.

StemEquine® Fórmula avanzada con SE2®, es una mezcla con patente y patente pendiente de ingredientes que apoyan la liberación natural de células madre adultas en el cuerpo, ayudando en el mantenimiento de una salud óptima.

Consulte con su veterinario antes de dar StemEquine® a su caballo si tiene alguna duda.

KEEP OUT OF REACH OF CHILDREN. DO NOT USE IF SAFETY SEAL IS BROKEN.
MANTENGASE FUERA DEL ALCANCE DE LOS NIÑOS. NO LO UTILICE SI EL SELLO ESTA RASGADO.

FAQ'S

What does StemEquine® Advanced Formula do?

StemEquine Advanced Formula supports the natural release of adult stem cells from your horse's bone marrow. Adult stem cells are the "master" cell found in the body after birth, most abundantly in the bone marrow. They form the very core of the body's natural renewal system for animals, just as they do for humans. Without them, the natural renewal process of your horse's tissues and organs simply could not take place.

Why do horses need StemEquine Advanced Formula ?

For a number of reasons such as heavy exercise and growing older, your horse's tissues and organs require ongoing natural renewal. By supporting the natural release of adult stem cells from the bone marrow, StemEquine Advanced Formula helps provide the raw materials necessary for this renewal process to take place. The result: a uniquely effective health and performance strategy for your horses.

Does StemEquine Advanced Formula Comply with Anti-Doping Regulations?

After review of the United States Equine Federation banned substance list, we can state that StemEquine Advanced Formula's ingredients are not on the list of banned substances. According to the United States Equestrian Federation, blackstrap molasses, apple and blue-green algae are permitted under the Therapeutic Substance Provision of the USEF Drugs and Medications Rule. We encourage all subject to drug testing to become fully informed of all products that are consumed by their animals and to know and understand their organization's banned substance regulations.

FOR YOUR INFORMATION

No sugar, artificial colors, artificial flavors, dairy, yeast, or preservatives.
