

## stemrelease3™

Stemtech is a company of innovations and a pioneer in a novel category of dietary supplements - Stem Cell Nutrition. Stemtech's research team continues to advance its natural products based on cutting edge research. We are proud to introduce stemrelease3™, the third generation of our original clinically documented stem cell enhancer.

### stemrelease3™ – A Dual Action Formula

First, **stemrelease3** is the only stem cell nutrition formula to contain stemrelease®, an exclusive blend of clinically tested ingredients that help support the natural release of your body's own stem cells.† Second, with its youth-promoting nutrients, **stemrelease3** helps support anti-aging processes and telomeres health.† Telomeres are the caps that protect the ends of chromosomes, similar to how shoelaces have plastic caps to stop them from fraying. Supporting and maintaining the health of your telomeres can help you enjoy a healthier and more youthful life.†

### Primary Benefits

- Supports the body's natural renewal system†
- Supports a general sense of well-being†
- Supports telomeres health†
- Promotes youthful, healthy aging†

### See for Yourself...

**stemrelease3** is our most advanced stem cell release supporting formula to date, and it's designed to deliver unparalleled results.†

Studies show that the more healthy stem cells you have circulating in your blood, the greater the ability of your body to naturally renew itself.†

With **stemrelease3**, you can function at your best, and support the healthy life you deserve.

stemrelease®	BENEFITS
Undaria pinnatifida (Fucoidan)	Undaria pinnatifida is an ultra-pure marine alga grown in pristine ocean waters. Known as one of the ocean's greatest treasures, Undaria pinnatifida has been documented to support a long-lasting increase in the number of circulating stem cells.†
Aloe Vera	The consumption of Aloe Vera, in its current bioactive form, enhances the absorption of multiple nutrients. It is a rich source of antioxidants and of polysaccharides, that play a key role in stimulating the immune system and support good health.

#### Other key ingredients include:

**Astragalus membranaceus extract** - shown to have a beneficial role in maintaining telomeres health and is considered one of the most important tonic herbs in Chinese medicine for its immune boosting properties.†

**Curcuma longa (Turmeric)** - Turmeric is known to provide many anti-aging benefits. It's also a powerful antioxidant that helps protect cells from free radical damage and oxidative stress, and promotes telomeres health.†

**Cordyceps sinensis** - has been highly prized in Chinese medicine for thousands of years. It's associated with stamina and longevity, and provides a wide variety of other health benefits.

## INGREDIENTS / LABEL

stemrelease3™ is Stemtech's latest and most advanced stem cell nutrition supplement.

stemrelease3 brings together an innovative, nutrient-rich blend of clinically tested ingredients to help support and maintain healthy immune function, and cellular renewal. This exclusive formula provides source of powerful antioxidants, and taps into the power of your body's own stem cells.

stemrelease3™ est le supplément le plus récent et le plus avancé de la nutrition cellulaire.

stemrelease3 réunit un mélange d'ingrédients innovatives et riches en nutriments, cliniquement testés pour le soutien du renouvellement des cellules souches et la santé immunitaire. Cette formule exclusive exploite la puissance de vos propres cellules souches.

**WARNING:** Consult a health care practitioner prior to use if you are pregnant or nursing, have diabetes or an auto-immune disorder, gallstones or a bile duct obstruction, stomach ulcer or excess stomach acid, or are taking blood thinners or anticoagulants. Keep out of the reach of children.

**MISE EN GARDE:** Consulter un médecin dans les cas suivants: si vous êtes enceinte ou si vous allaitez, on une maladie auto-immune, les calculs biliaires ou une obstruction des canaux biliaires, des ulcères/lésions de l'estomac, un excès d'acidité gastrique, ou si vous prenez des anticoagulants ou des fluidifiants sanguins.

Garder hors de portée des enfants.

**Advanced StemCell Nutrition**  
*Nutrition des Cellules Souches Avancées*

Helps support and maintain healthy immune function  
*Aide à soutenir et à maintenir fonction immunitaire saine*

Source of Antioxidants  
*Source d'antioxydants*

DOSAGE FORM/NET AMOUNT: 60 CAPSULES (561 mg)  
FORME POSOLOGIQUE / QUANTITÉ NETTE: 60 CAPSULES (561 mg)  
NPN 80080960

Suggested Use (adults): 2 capsules daily  
*Suggéré d'usage (adultes): Prendre 2 capsules par jour.*

Medicinal Ingredients:	
Each capsule contains	
Astragalus (Astragalus membranaceus, root extracts; 5:1)	166 mg *
Wakame (Undaria pinnatifida, whole extract) ≥75% Fucoidan	125 mg *
Turmeric (Curcuma longa, rhizome extract) ≥30% Curcumin	100 mg *
Cordyceps (Ophiocordyceps sinensis, cultured mycelia) **	90 mg *
Aloe (Aloe vera, leaf gel)	80 mg *
*Daily Value not established.	

Non-medicinal Ingredients: hypromellose, wheatgrass, maltodextrin

Gluten Free. Contains no sugar, artificial colors, artificial flavors, dairy, yeast or preservatives.  
*Sans Gluten. Libre de sucre, colorants artificiels, saveurs artificielles, produits laitiers, levadura y conservateurs.*

\*\*Organic / Organique

Keep in a cool dry place in original container. Conserver dans un endroit frais et sec dans son contenant d'origine.

# stemrelease3™

## 1. Do Stemtech products contain stem cells?

Our products do not contain stem cells of any kind and are not associated with any stem cell therapy.

## 2. What do Stemtech products do?

Stemtech's products provide unique natural and nutritional support for your body's stem cells physiology and healthy activity, and help improve cellular rejuvenation. Stemtech products also support anti-aging processes and help increase vitality.

## 3. What is the benefit of taking stemrelease3™?

Stemrelease3 is a natural nutritional formula that performs in two ways. First, it supports the natural release of your body's own stem cells from the bone marrow into circulation and naturally enhances the renewal and regeneration processes in your body. Second, stemrelease3 helps maintain healthy longevity through supporting telomere health.†

## 4. What ingredients make up stemrelease3™?

Our exclusive blend contains five powerful and natural ingredients. Undaria pinnatifida (fucoïdan) is the primary driver in supporting the immune system function, anti-oxidant processes, and natural release of your body's own stem cells.†

Undaria pinnatifida (Fucoïdan) is a marine alga from pristine ocean environments that has been scientifically documented to support a long-lasting increase in the number of your own circulating stem cells.† It's also well known for enhancing the immune system function. Undaria pinnatifida has been consumed in Japan and other Asian countries for hundreds of years and is considered a "longevity factor."

## 5. Are there other ingredients in stemrelease3?

Stemrelease3 also contains three other powerful and health enhancing and anti-aging compounds: Astragalus membranaceus, Curcuma longa (turmeric) and Cordyceps sinensis. Stemrelease3 has been enriched with wheat grass that is a source of chlorophyll and several health boosting vitamins, minerals and amino acids. Wheat grass makes great addition to the active compounds present in stemrelease3.

*Astragalus membranaceus – It has been known in traditional Chinese medicine for thousands of years and is considered to be one of the most powerful immune boosting compounds. It also plays an important role in supporting telomere health.†*

*Curcuma longa (Turmeric) – Indian spice has been known to provide many powerful anti-aging and stem cell supporting benefits.†*

*Cordyceps sinensis – It has been used in traditional Chinese medicine for over 2,000 years and is associated with stamina, longevity and a wide variety of health benefits, especially the immune system and stem cell release support.†*

## 6. What are telomeres?

Telomeres are the protective caps at the end of the chromosomes in each of your cells. They get shorter as we age, so maintaining their health is vital to our health and well-being.†

## 7. What is the recommended usage for StemRelease3?

One serving of stemrelease3 consists of 2 veggie capsules. Recommended use for adults 20+ is to take 1-3 servings daily.

## 8. What is the optimum way to take stemrelease3?

Stemrelease3 can be taken any time of day with food.

## stemrelease3™

### **9. Is stemrelease3 approved by the US Food and Drug Administration (FDA)?**

Stemrelease3 is considered food or a dietary supplement, not a drug, and it's not intended to treat or cure illnesses or diseases. Its benefits have therefore not been evaluated by the US Food and Drug Administration (FDA). However, the FDA does regulate and strictly monitor the labeling and safety of the dietary supplements, such as stemrelease3. Stemrelease3 is manufactured in a licensed, FDA-inspected facility and in accordance with Good Manufacturing Practices and high standards.

### **10. Why does the stemrelease3 label state “consult your physician if you are pregnant or nursing”? What if I get pregnant while I am taking stemrelease3?**

Many dietary products carry such warnings out of caution. As with all dietary supplements, it is recommended that you consult your physician if you are pregnant.

### **11. Can stemrelease3 be taken with other Stemtech stem cell nutrition products?**

If you are not under any medical treatment or take medication, you can use the combination of Stemtech products. They are considered foods. Release, circulation, and migration are your stem cells' main functions. Stemtech's natural products help nourish your cells and support their healthy bioactivity that may lead to improved well-being and a healthy longevity.

### **12. Why does the label say that people taking anticoagulants should consult their physician prior to taking stemrelease3, and what information does their physician need?**

People taking anticoagulants advised by their prescribing physician need to pay attention to the amount of vitamin K in their diet. Like many green foods, stemrelease3 contains naturally occurring vitamin K at low dose and that is in compliance with the RDA. The US Recommended Daily Allowance (RDA) of vitamin K is 80 mcgs. For further reference, half a cup of raw chopped broccoli has roughly 100 mcg of vitamin K and half a cup of boiled spinach has about 540 mcg of vitamin K. If you take anticoagulants, your doctor may advise you to pay attention to consuming these greens as well.

### **13. Can stemrelease3 be taken with medications?**

As with all dietary supplements, if you are under treatment for any illness or taking medication, you should consult your doctor.

### **14. Is stemrelease3 vegan?**

Stemrelease3 contains no animal ingredients and is considered vegan. Stemtech utilizes pure and high quality ingredients. As with all Stemtech products, stemrelease3 has a composition of organic ingredients and is free of gluten, GMO, heavy metals, additives, colorants, and preservatives.
