

Invite Nature to be a part of your daily lifestyle

The revolutionary Dermastem®'s formula was designed with the latest technology and innovation to help your skin the way Nature intended. Our breakthrough serum revitalizes the skin's appearance, restoring and maintaining its youthful vibrancy. DermaStem® is made of natural ingredients that support the ideal environment for the natural process of skin renewal. Just one or two pumps of the mocha-hued fusion of natural oils and plant extracts applied to delicate areas of the face increase elasticity and moisture retention.

Dermastem® stands out in the skincare products world! It brings unprecedented results and keep you looking youthful.

The very best ingredients blended with innovative SoniPure™ processes become a unique and powerful formula.

Early clinical tests have demonstrated dramatic results in just days after applying DermaStem®. Significant results in a FEW days.

Reduction in the appearance of fine lines and deep wrinkles

Hydration increase

Increase in the elasticity

FEATURES	BENEFITS
Dozens of organic or wild-harvested plants with individual properties to fight the signs of premature aging have been assembled from around the world	A unique product that can return your skin to its youthful appearance.
Oils of Cyathea medularis (Black mamaku), Aloe barbadensis (Aloe vera) and berries are extracted using a cold infusion process so that the delicate essences of all the plants are preserved	Each anti-aging ingredient is delivered in its most powerful, effective form for greatest benefit.
No mineral oils, preservatives or chemicals	The all-natural emulsion of natural oils disappears instantly into the skin for immediate effect and no residue, without potential toxicity.
Exclusive to DermaStem® Renewal Serum: RejuvHyal™, a proprietary form of N-acetyl glucosamine which enhances the appearance of the skin, helping it to appear smoother and more youthful	Younger looking skin feels tighter and smoother, and has a radiant glow.
Exclusive to DermaStem® Renewal Serum: A blend of six Cytokines that support the natural renewal of the skin	Outer vibrance comes from renewal and rejuvenation of the surface of the skin, producing a more youthful appearance.

INGREDIENTS

Berry juices reconstituted in high vibration Enki™ Water (Maqui berry, Pomegranate, Wild bilberry, Wild lignonberry, Blackcurrant, Aronia, Wild blueberry, Concorde grape, Sour cherry, Wild elderberry, Wild cranberry, Red raspberry, Black raspberry), Black mamaku juice, Aloe vera juice, Safflower oil, Olive oil extract, Nilotica butter, Cocoa butter, Coconut oil, RejuvHyal™, Chilean soapnut, Honeysuckle, Mekabu (fucoidan), Rosa mosqueta, AFA microalgae, Bitter orange extract, Aspen bark extract, Lactobacillus ferment, Vanilla, Cacao, Bentonite clay, Old Man's weed, Soy lecithin, Vitamin E (Sunflower), Soy Isoflavones, Amla, Green tea extract, Olive extract (Hydroxytyrosol), Guar, Moringa, Sangre de drago, Samambaia, Cytokines, Jasmine oil, Sweet orange oil, Bulgarian rose oil, Tangerine oil, Ylang-ylang oil.

USAGE:

Place 1 to 2 pumps onto fingers, apply and smooth around face, starting with delicate areas. Use morning and night on a clean, slightly damp face.

FAQ'S**What is DermaStem® Renewal Serum?**

DermaStem® is the only one of its kind that taps into the real potential of skin's ability to revitalize itself. Its revolutionary formula includes dozens of natural ingredients taken directly from the forests and jungles of the world, all combined in an emulsion of natural oils.

How is DermaStem® different from other creams and lotions marketed to fight the signs of premature aging of the skin?

DermaStem® is designed to support the natural role of key elements in the renewal process, leading to a more youthful appearance of the skin. In addition, DermaStem® is processed using cold infusion that preserves the delicate essence of each plant as well as a sound-wave sanitizing technology called SoniPure™.

What is unique about Dermastem®?

The elements in DermaStem®'s formula provide the ideal environment for the regenerative properties of the skin. By supporting and providing the building blocks of the skin matrix, DermaStem® increases skin's elasticity and moisture retention, leading to a smoother skin surface. DermaStem® also provides strong antioxidants to protect the skin.

What is the role of hyaluronic acid (HYA) in the skin? How is the loss of HYA in the skin linked to premature aging, and how is DermaStem® addressing the situation?

The matrix of the skin is made of a complex interaction of proteins and glycosaminoglycans (GAGs) of which hyaluronic acid (HYA) is one of the most important.

In a young skin, HYA is highly branched, but as we age the skin's ability to synthesize branched HYA decreases. Highly branched HYA, as seen in young skin, can absorb up to 1000 times its weight in water. The loss of branched HYA therefore leads to dryness, loss of skin integrity and wrinkle formation. DermaStem® contains RejuvHyal™, a unique ingredient that supports the formation of branched HYA in the skin. The presence of cytokines and other ingredients further supports the rejuvenation of the skin.

FOR YOUR INFORMATION

One DermaStem® Renewal Serum pump container will last 2 months, using 2 pumps of the product 2 times a day.

Refrigeration is suggested to preserve the delicate bioactive properties of this serum.

DermaStem® contains absolutely nothing artificial. No mineral oils, preservatives, or petro-chemicals are part of either the formula or the processing. Sound-wave sanitizing technology called SoniPure™ and cold processing preserves the very fabric of each plant for unprecedented effect.

PEA: The mocha-hue of DermaStem® reflects the natural blend of ingredients from Nature. The main reason why Dermastem® is darker than other skin care products is because of the sheer concentration of pigmented plants extract used to make Dermastem®, making it arguably the strongest product on the marketplace.

Also, frequently skin care products contain chemical agents that whiten their blend. Dermastem® utilizes no such compounds. DermaStem® comes to you in its full natural state.

This product is not intended to diagnose, treat, cure, or prevent any disease.
