

se3™

Invite Nature to be a part of your daily lifestyle!

Stemtech was the first to discover a ground-breaking way to support everyone in their daily lifestyles. Our Advanced Formula now brings a new discovery to the forefront featuring a unique formulation.

Introducing se3™ – Exclusive blend of clinically tested ingredients!

se3 is the nutrition formula to contain an exclusive blend of clinically tested and high purity ingredients. se3 formulation is based on innovation that no one else in the market offers. It is the cutting-edge of modern science and supports not only the same concept as its previous versions, but also reinforces immune system responses. Our advanced se3 now contains advanced blend of powerful natural compounds and has three times higher concentration of fucoidan than previous version of this product. The advanced se3 contains indispensable Aloe macroclada and other new powerful compounds such as Astragalus, Turmeric (Curcuma longa), and wheat grass. These natural compounds are effective in increasing the potency and efficacy of the other compounds in se3 and their synergistic action.

se3 presents four nutritional advantages:

- Release step: Our new exclusive blend of Undaria pinnatifida and Aloe macroclada acts in synergy.
- Immune system: Astragalus membranaceus root and Curcuma longa extract contribute to body defenses against external agents.
- Oxidative stress: Fucoidan and Curcuma longa extract contribute to the protection of cells against oxidative stress.
- Tonifying agent: Cordyceps sinensis and Astragalus membranaceus root are used in Chinese traditional medicine as natural stimulating agents.

Experience it for Yourself...

se3 is our most advanced formula to date and designed to deliver unparalleled results!

INGREDIENTS	BENEFITS
Aloe macroclada	Aloe macroclada has been used for centuries, is endemic to Madagascar and traditionally considered by the local people as a natural healing ingredient, as well as a factor of rejuvenation and longevity.
Organic Undaria pinnatifida	A marine-brown algae, also named Wakame. The extract used in se3 formula is rich in fucoidan and offers a wide variety of benefits. It is rich in proteins (14g/100g) and in fibers (30g/100g). Undaria pinnatifida is also source of vitamins (A, B1, B2, C), and minerals, such as calcium and magnesium.
Organic Cordyceps sinensis	A medicinal mushroom that naturally grows in the high plateaus of Tibet, Nepal and parts of China. It has been known in traditional Chinese medicine for over 2000 years and it is used as a tonifying agent and adaptogen. The chosen cordyceps extract has been genetically tested by independent labs and contrary to other Cordyceps sinensis extracts, it is not genetically altered from the wild species. It is certified Organic by the USDA agency.
Astragalus membranaceus extract	Astragale root has been used in Chinese traditional medicine for thousands of years. Astragalus has been shown in clinical studies to provide powerful effects and plays an important role in a daily diet.
Curcuma longa extract (Turmeric)	Curcuma longa is an Indian spice, extracted from the rhizome of the plant, which is widely used with distinct traditional roles. Besides its well-known use in foods preparation, it has been extensively researched for numerous benefits and supported by thousands of research studies. Turmeric -a powerful antioxidant, helps protect cells from free radical damage and oxidative stress.

INGREDIENTS / LABEL

CONDITIONS OF USE:

A dietary supplement can not be used as a substitute for a varied and balanced diet and a healthy lifestyle. Do not exceed the recommended daily dose.

CAUTIONS AND WARNINGS:

Keep out of reach of young children. Do not administer to children under 12 years. It is recommended that you consult your doctor if you are pregnant, breastfeeding, undergoing treatment for an illness or taking blood thinners or other medications. No prolonged use without expert advice. Does not contain gluten, artificial colors or flavors, dairy product, or preservative.

60 CAPSULES
NET WEIGHT 42 G

INGREDIENTS LIST: Astragalus membranaceus extract (root), Undaria pinnatifida extract (wakame), wheat grass – young leaf (Triticum aestivum), Cordyceps sinensis, Aloe macroclada extract, Glazing agent (Hydroxypropylmethyl cellulose E464 - vegetable capsule), Turmeric curcuma longa extract (rhizome)

Supplement Facts

Serving size: 2 capsules

Serving per container: 30

DIRECTIONS: 2 capsules, 1 to 3 times daily

INGREDIENTS	QUANTITIES PER SERVING 2 capsules (mg)	QUANTITIES PER 3 SERVINGS 6 capsules (mg)
Astragalus membranaceus extract (root)	332	996
Undaria Pinnatifida extract (wakame)	250	750
Cordyceps sinensis	180	540
Aloe macroclada gel	180	540
Turmeric Curcuma longa extract (rhizome)	158	474

No added sugars. Contains naturally occurring sugars.

REV1-JUN18 Item Code: 1004UK

FAQS

What is the benefit of taking se3™?

Our advanced se3 now contains Aloe macroclada and powerful compounds such as Astragalus, and Turmeric (Curcuma longa). These natural compounds have been chosen to increase the potency and efficacy of compounds in se3 and their synergistic effects.

Who should use se3?

se3 is ideal for anyone who wants to maintain their maximum wellbeing potential. se3 contains clinically-tested ingredients and is at the forefront of nutritional science. It's great for adults who want to experience amazing wellbeing benefits.

How do I use se3?

One serving of se3 consists of 2 veggie capsules (1100 mg). Recommended use for adults 18+ is to take 1-3 servings daily.
