

derma^{stem} lift

DermaStem Lift is a revolutionary new product that diminishes visible signs of aging and revives the skin for a more youthful look. DermaStem Lift was designed with only natural and organic elements and ensures noticeable results in only 15 minutes. Its benefits are dramatically more evident in 7 days as it provides an ever-growing, vibrant, and non-greasy appearance to the skin.

DERMASTEM LIFT CONTAINS AN AYURVEDIC HERB BLEND WITH INGREDIENTS THAT WORK ON THE REDUCTION OF WRINKLE DEPTH, MOISTURIZING AND HYDRATING THE SKIN FOR IMMEDIATE RESULTS.

There is nothing artificial in the DermaStem Lift formula. Some of its ingredients are sunflower lecithin, water, squalene and extract of watermelon, lentil, apple, Indian Gentian, plankton, and olive leaf. All ingredients of this product have been carefully selected to provide a rejuvenating effect on the skin. DermaStem Lift is based on research on stem cells, which are the cells responsible for maintaining and repairing human tissue and organs.

Early clinical tests have demonstrated dramatic results (see graph).

FEATURES	BENEFITS
The power of plankton, an instant wrinkle filler.	Results in 15 minutes, a decrease of fine lines and wrinkles, and an effect that lasts 6 hours.
Totally plant-based Squalane and Propanediol, which are safe for sensitive skin.	A reduction of skin irritation and an increase in skin moisturizing, which results in a soft, smooth, non-greasy feel.
A natural complex of watermelon rind, apple starch – a source of polysaccharides – and lentil extract, rich in vitamin B5.	Skin hydration for 24 hours, a smoothing of fine lines in 2 hours, and an increase of cell membrane fluidity of 40%.
Sunflower lecithin, a compound that mimics the lipid structure of the skin.	A “second skin” that acts as a water reservoir and helps to restore the cutaneous barrier of dry, aging and damaged skin.
Olive leaf extract, a natural anti-oxidant, ideal for both dry and oily skin types.	Improvement of skin elasticity, protection against some UV damage and environmental pollutants.

INGREDIENTS / LABEL

0.17 oz (5 ml)

All Natural Ingredients (Common Name):

Propanediol, plankton extract, Squalene, Epilobium Angustifolium extract, Citrus Vulgaris (Watermelon) fruit extract, Pyrus Malus (apple) fruit extract, Lens Esculentis (lentil) extract, Allantoin, Lactobacillus ferment (from cabbage), Cocos Nucifera (coconut) fruit extract, Isopropyl Palmitate, Lecithin, Swertia Chirata (Indian gentian) extract, Ethylhexyl Stearate, Sodium Hyaluronate Crosspolymer, Polyglyceryl-4, Dilsostearate, Polyhydroxystearate, sebacate, sodium isostearate, propanediol, ornithine, phospholipids, glycolipids (vegetable glucose derived), Olea Europaea (olive) leaf extract, water.

RESEARCH / REPORTS / ARTICLES

- Research on Bio-Controlled Lipofilling Adipofill, by Lucas Meyer Cosmetics, Canada.
- Study on Squalene composition and effects, by Amyris Corporation, April 2015.
- Research on AcquaCell fruit compound, by the Barnet Corporation and the Ecocert Group.
- Study on Brestine: Properties, Formulation and Effects, by the Barnet Corporation, New Jersey, USA.

USAGE:

- Apply 5 to 10 minutes after moisturizing or applying makeup.
- Dispense one pump or less on fingertip and pat where results are desired.
- Can be used under the eyes, forehead, around mouth, etc.
- Applying Lift should be the last step of your skin care and make up routine.
- Re-apply during the day if needed.

derma^{stem} lift

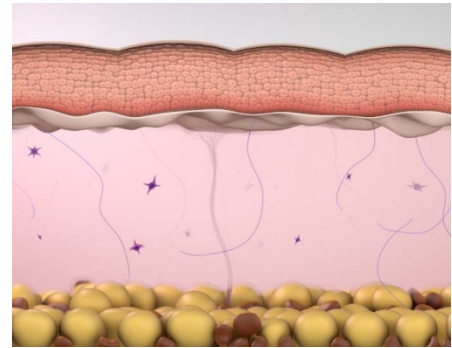

Anti-Aging Results In One Week

Fast resurfacing effect on vertical wrinkles and skin texture after only 7 days

- Vertical wrinkle & skin texture smoothing effects after 7 days
- Capacity to regenerate epidermis in 28 days
- Anti wrinkle action on lip contour after 7 days of use
- Decreases the appearance of wrinkles and improves skin texture after only 7 days
- Increase in keratinocyte growth factor (KGF) production and regenerative effect within 9 days

Aged Skin - Before

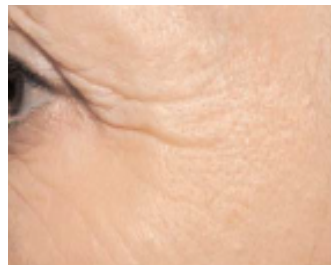

Aged Skin - After 7 days

Power Of Plankton

INCI Name: Water (and) Plankton Extract

Plankton can fill the furrows of the skin very quickly and smooth out small wrinkles.

- Instant Filler
- Results seen within 15 minutes
- Reduction of fine lines and wrinkles
- Plankton has an immediate effect on lines, maintaining results after 6 hours

Time: 0 minutes

Time: 15 minutes

derma stem lift

What is DermaStem Lift?

DermaStem Lift is an anti-wrinkle product that works quickly and effectively, revives skin for a more youthful look, diminishes visible signs of aging, and provides long term benefits.

Does DermaStem Lift replace DermaStem serum?

No. DermaStem Lift works more as an immediate cosmetic aid for your skin, whereas DermaStem Serum is a more continuous, daily skin care treatment. For the ultimate results, you should use both DermaStem Serum and Lift daily as needed.

What is the shelf life for DermaStem Lift?

Lift has a shelf life of two years.

Does DermaStem Lift need to be refrigerated?

No, it doesn't. Unlike DermaStem Serum, you can keep Lift at regular room temperature.

What is plankton extract and how does it benefit the skin?

Plankton extract is a concentration of marine organisms such as diatoms, green micro-algae, greenish-blue and nitrogen-fixing seaweed. Plankton extract can fill the furrows of the skin very quickly and the small wrinkles are smoothed out. Its results are visible in 15 minutes and lasts up to 6 hours.

How does DermaStem Lift work at the cellular level?

DermaStem Lift has a moisturizer effect in the lipidic layers of the skin and mimics the lipid structure in the stratum corneum (the outer layer of the skin), acting as a "second" skin" and restoring the cutaneous barrier. Some of its properties provide a reservoir of water and biologically active molecules which are slowly released to the stratum corneum.

Is DermaStem Lift good for sensitive skin?

DermaStem Lift was designed only with natural and organic ingredients, which makes this product safe for sensitive skin. Lift contains extract of Epilobium Angustifolium, a flower also known as fireweed or rosebay willowherb, which reduces redness and alleviates irritated or inflamed skin.

Has DermaStem Lift been tested on animals?

No, DermaStem Lift has not been tested on animals.
